(vi) Institutional set-up for liquidity risk management:

Indiabulls Commercial Credit Limited (ICCL) is a Non-Deposit taking Systematically Important [ND-SI] Non-Banking Financial Company [NBFC] registered with RBI. The Company raises finances by using a mix of various debt instruments like Non-Convertible Debentures, Bank Loans, Foreign Currency Loans, Commercial Papers, etc. On the assets side, the Company has loan products broadly classified under loans against property, SME Loans and project finance loans with varying repayment structures depending upon the nature of product.

Managing Balance Sheet is of the utmost importance for the Company to earn sustainable profits and increase the wealth of shareholders. In the normal course, the Company is exposed to credit and market risks in view of the asset-liability transformation, therefore adopting the guidelines issued by the regulator as per the requirements of the business, the Company has put in place an Asset Liability Management (ALM) Policy which enables the Company to decide upon the mix of liabilities and assets and handle the major risks associated with the management of ALM.

ALM Policy encompass the process of identifying, formulating, implementing, monitoring and reviewing the asset liability strategies in order to achieve planned financial objectives, given a clearly defined set of risks and risk tolerances and the constraints in pursuing the strategy. This document will be updated periodically to reflect evolving regulations and market conditions.

The company exceeds the regulatory requirement of LCR which mandate maintaining prescribed coverage of expected net cash outflows for a stressed scenario in the form of high-quality assets (HQLA). As of 30 September 2024, the company maintained LCR of 278% well in excess of the stipulated regulatory norm.

Notes:

- 1) Total liabilities have been computed as sum of all liabilities (total balance sheet size) less Net Worth
